daisy s new life is already a world apart from the last once cast out for a worthless job and left to die alone she s now the cherished daughter of a viscount with a rare skill a loving family and a future that s finally hers to shape sure she s been saddled with the undesirable job of alchemist again but things couldn t be more different this time with her appraisal ability the blessing of the spirits and brand new alchemy tools at her side daisy is ready to turn her second chance into something truly magical before long

she's brewing potions for kingdoms gathering rare materials with ease and still finding time to bake fresh bread this time the overpowered alchemist is going to make sure her future shines bright

inspired by her popular wild thing podcast journalist laura krantz incorporates the scientific method and her journalistic skills to determine if magic might be real in do you believe in magic magic spells and curses hexes and potions superstition and rituals we've all heard stories of alchemists attempting to turn abundant lead into precious rare gold or of poor unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love and of course we're familiar with curses muttering magical words for the purposes of exacting revenge on an enemy or protecting a hidden treasure who wouldn't like the idea of special powers or control over the natural world it seems pretty fun even if it's just the stuff of fantasy books and movies but a lot of what we call magic has grounding in real practices in fact magic is at the root of many scientific fields from chemistry to botany to astronomy and has been an important part of human culture for thousands of years do you believe in magic takes readers through a world where magic and science collide what do they have in common where do they differ what role has magic played in our history and the history of science why is magic still significant even when it doesn't seem to line up with reality and is it possible to be scientifically minded and still believe in magic readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin includes color illustrations an at home science magic experiment glossary bibliography and index a wild thing series the search for sasquatch is there anybody out there do you believe in magic

the scientists of the twelfth century were daring original inventive and above all determined to discover purely rational explanations of natural phenomena their intense interest in the natural world for its own sake their habits of precise observation and the high value they place on man as a rational being portend a new age in the history of scientific thought this book offers a comprehensive sampling of medieval scientific thought in the context of an historical narrative

this book argues for dynamic and relevant school experiences for primary and early secondary learners that embed digital media production it proposes a vision of literacy that combines new technologies with multiple modes of meaning making drawing on theories related to cultural studies media literacy anthropology and

creativity the author explores learning strategies with digital media based on an empowering values driven framework the book advances innovative teaching methods critiquing educational reforms that marginalise media and fail to engage with the complex tensions and textures of modern pedagogy positioning film and media making as vital practices in schools that nurture the skills dispositions and competencies of modern literacy the model foregrounds connections between human agency cognition and creative practice this innovative book will appeal to students and scholars of creativity digital media production primary education and literacy
