this ambitious study explores how important darkness artificial darkness was as an actual technology in producing not just photographs but visual novelties and experiments in cinema in the nineteenth century the study plays out against a backdrop of urban history where most scholars have focused on the growth of artificial light and the electrification of cities elcott s study challenges that approach in considering zones of darkness it ranges from the sites of production darkrooms studios to those of reception theaters cinemas arcades that shaped modern media and perceptions he argues that in the nineteenth century the avant garde was often less interested in the filmed image than in everything surrounding it the screen the projected light the darkness the experience of disembodiment he argues that darkness has a history separate from night evil or the color black and has a specifically modern manifestation as a media technology we are all aware of the velvet light trap in photography but at the heart of this book are technologies of darkness crucial to cinema that were commonly known as the black screen but have over time faded from the storied discourse

in a world of increasingly strident identity politics a theological approach claiming no more than the outworking of subjectivist sentiment offers no remedy what if a key factor in this predicament is a misrepresentation of the operation of metaphor this acknowledged building block of language looks set to become a mere component of the wearer s spectacles the consequences for theology philosophy literature and even the sciences are yet to be charted this book takes readers on a journey to the land of oz and asks whether our culture while discarding past errors can reconnect with the spiritual bonds that underpin language truth in its various forms and identity companions on the road are dorothy and her friends sallie mcFague and the wizard paul ricœur and c s lewis and others
