the bell system dominated telecommunications in the united states and canada for most of the twentieth century but its monopoly was not inevitable in the decades around 1900 ordinary citizens farmers doctors small town entrepreneurs established tens of thousands of independent telephone systems stringing their own wires to bring this new technology to the people managed by opportunists and idealists alike these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy as the bell empire grew independents fought fiercely to retain control of their local networks and companies a struggle with an emerging corporate giant that has been almost entirely forgotten the people s network reconstructs the story of the telephone s contentious beginnings exploring the interplay of political economy business strategy and social practice in the creation of modern north american telecommunications drawing from government documents in the united states and canada independent telephone journals and publications and the archives of regional bell operating companies and their rivals robert macdougall locates the national debates over the meaning use and organization of the telephone industry as a turning point in the history of information networks the competing businesses represented dueling political philosophies regional versus national identity and local versus centralized power although independent telephone companies did not win their

fight with big business they fundamentally changed the way telecommunications were conceived

master s thesis from the year 2012 in the subject business economics business management corporate governance grade 1 7 heilbronn university language english abstract women are still significantly underrepresented in top management positions and leadership is still associated with the male gender as leadership theories traditionally focus on men this is especially evident in china which has one of the world s highest female labor participation but a female share of only eight percent on the corporate boards although chinese women s tertiary educational attainment is now equal to the tertiary education of chinese men they still face many barriers on their way to the top the strong influence of confucian values perceiving women as inferior to men remains noticeable until today and women find themselves exposed to a strongly patriarchal business environment as being traditionally the main care givers of their families they are deemed to be expensive potential mothers and thus gender preference can be observed second classical leadership theories of the western culture as well as of the chinese culture are introduced to provide a common understanding of their approaches further the situation of women in the past and of today is being compared as well as their leadership styles access to managerial leadership positions and the barriers they face since educational attainment of both genders does not explain why women are rarely found on the upper managerial ranks other reasons that could be a barrier for women s career advancement are examined in this research
