labor economics 5e is a well received text that blends coverage of traditional topics with modern theory and developments into a superb labor economics book the

fifth edition builds on the features and concepts that made the first four editions successful updating and adding new content to keep the text on the cusp of recent events in the labor economics field the new edition continues to be the most concise book in the market enabling the instructor to teach all relevant material in a semester long class despite the book's brevity the instructor will find that all of the key topics in labor economics are efficiently covered in the fifth edition thanks to updated pedagogy new end of chapter material and even stronger instructor support the fifth edition of labor economics remains one of the most relevant textbooks in the market

poverty is a pressing and persistent problem while its extent varies across countries its presence always represents the diminution of human capacity therefore it seems natural to want to do something about it have countries made progress in mitigating poverty how do we determine who is poor and who is not poor what intuitions or theories guide the design of anti poverty policy is overall labor market performance the key to keeping the poverty rate low or does it matter how well connected an individual is to those who know about the availability of jobs does being an immigrant increase the odds of being poor are there anti poverty policies that work for whom do they work if i'm poor will i have access to health care and housing am i more likely to be obese polluted upon incarcerated unbanked and without assets if i'm poor is poverty too hard a problem for economic analysis these are some of the questions that a distinguished group of scholars have come together to confront in this handbook the handbook is written in a highly accessible style that encourages the reader to think critically about poverty theories are presented in a rigorous but not overly technical way concise and straightforward empirical analyses enlighten key policy issues the volume has six parts poverty in the 21st century labor market factors poverty policy poverty dynamics dimensions of poverty and trends and issues in anti poverty policy a goal of the handbook is to stimulate further research on poverty to that end several chapters challenge conventional thinking about poverty and in some cases present specific proposals for the reform of economic and social policy

nearly 3 of the world's population no longer live in the country where they were born george borjas synthesizes the theories models and econometric methods used to identify the causes and consequences of international labor flows and lays out with clarity a full spectrum of topics with crucial implications for framing debates over immigration

this 1997 edition of oecd s periodic survey of the us economy examines recent economic developments policies and prospects it includes special features on immigration and entrepreneurship

the historic rise in international migration over the past thirty years has brought a tide of new immigrants to the united states from asia south america and other parts of the globe their arrival has reverberated throughout american society prompting an outpouring of scholarship on the causes and consequences of the new migrations the handbook of international migration gathers the best of this scholarship in one volume to present a comprehensive overview of the state of immigration research in this country bringing coherence and fresh insight to this fast growing field the contributors to the handbook of international migration a virtual who s who of immigration scholars draw upon the best social science theory and demographic research to examine the effects and implications of immigration in the united states the dramatic shift in the national background of today s immigrants away from primarily european roots has led many researchers to rethink traditional theories of assimilation and has called into question the usefulness of making historical comparisons between today s immigrants and those of previous generations part i of the handbook examines current theories of international migration including the forces that motivate people to migrate often at great financial and personal cost part ii focuses on how immigrants are changed after their arrival addressing such issues as adaptation assimilation pluralism and socioeconomic mobility finally part iii looks at the social economic and political effects of the surge of new immigrants on american society here the handbook explores how the complex politics of immigration have become intertwined with economic perceptions and realities racial and ethnic divisions and international relations a landmark compendium of richly nuanced investigations the handbook of international migration will be the major reference work on recent immigration to this country and will enhance the development of a truly interdisciplinary field of international migration studies

the impact of immigration on the united states economy closely examines the effects of immigration on the united states economy from 1940 1980 using multiple linear regression kposowa found that overall immigration has had positive effects on the us economy especially in terms of increasing native earnings and native socioeconomic attainment however he also found that immigration has negative effects on minority earnings particularly those of african americans contrary to popular belief kposowa reveals how immigrants as a population are significantly less likely than native born people to be on public assistance or social security this fascinating

study debunks many myths surrounding immigration and concludes by offering practical public policy recommendations

the signing of the north american free trade agreement nafta was expected to signal the beginning of a new era of close co operation between mexico and the united states subsequent events however have introduced new tensions into the relationship the 1995 economic collapse in mexico sharply curtailed economic growth and lowered the demand for u s exports the result has been a substantial deficit in u s trade with mexico and renewed arguments that trade with mexico reduces the employment opportunities of low skilled workers in the united states immigration both legal and illegal has grown as a subject of contention between the two countries mexico has also come under increased focus as a conduit for the flow of drugs into the united states in this book scholars from the united states and mexico examine the major elements of the bilateral relationship the economic dimension is highlighted in two papers that focus on the effects of nafta on trade and financial transactions the political and social dimensions are taken up in three papers on immigration drug trafficking and environmental concerns the contributors include j enrique espinosa and pedro noyola sai consultores mexico john williamson institute for international economics juan carlos belauteguigoitia ministry of the environment mexico peter smith university of california san diego and george borjas harvard university

ingram philosophy loyola university brings a variety of current social dilemmas together in a mutually illuminating way he examines the concept of legal equality in a multiracial society by considering issues such as self governance for native americans the rights of immigrants affirmative action and racial redistricting tie also tackles the problem of social injustice in a global setting by assessing the negative impact of free trade policies on the rights of groups to self determination and cultural integrity

die zuwanderung in die schweiz hat sich in den letzten jahren dank des personenfreizügigkeitabkommens mit der eu deutlich zugunsten von hochqualifizierten verschoben diese elitenmigration ist zu einem wichtigen motor des wirtschaftsaufschwungs geworden trotz dieses paradigmenwechsels wird die politische debatte über migration noch immer von den problemen früherer zuwanderungswellen dominiert z b ausländerkriminalität integrationsprobleme avenir suisse analysiert die wirtschaftlichen sozialen und politischen auswirkungen der neuen migration und zeigt wie sich die schweiz auch zukünftig im internationalen wettbewerb um die besten köpfe positionieren kann die verschiedenen facetten der neuen migration werden auf spannende und erhellende art aufgefächert und allgemein verständlich vermittelt

der farbig illustrierte sammelband bietet eine mischung aus analytischen beiträgen porträts und interviews

the new americans nrc 1997 presents an analysis of the economic gains and losses from immigration for the nation states and local areas providing a scientific foundation for public discussion and policymaking this companion book of systematic research presents nine original and synthesis papers with detailed data and analysis that support and extend the work in the first book and point the way for future work the immigration debate includes case studies of the fiscal effects of immigration in new jersey and california studies of the impact of immigration on population redistribution and on crime in the united states and much more

the controversial bestselling book 37 500 hardcover copies sold that helps define the debate about one of the most important and hotly contested issues facing america immigration
