each poem in this book speaks about experiences and thoughts since the author was first
diagnosed with depression and anxiety disorder and since she metaphorically felt thunder in
my head rain on my cheeks in a society that too often does not understand mental illness
these poems help to open the eyes on the topic and to connect with the author's experiences
you cried i comfort i cried you watched as a poem in the book says too often people are left
alone dealing with these issues but everyone deserves a happy future the key thing is to seek
help this is the message full of love and hope that the author wants to send out the hope is to
help people with mentally ill friends family or co workers to understand it better than they did till
now joe m is a young woman who has struggled with mental illness since her early teens and
part of her childhood and still does to this day she got lost in the diseases and couldn't
distinguish the differences between her personality and the diseases as a result she was never
able to develop self confidence and always had to fight for her life writing down the feelings
and thoughts helps her like a form of therapy from which this book arose after realizing how
common mental illnesses are she wanted to use this book to show those people with illness
that they are not alone and to give people who don't know what it feels like to live with an

insight to react more empathetically to their fellow human beings and understand them to be able to she grew up in a little village with her family and wants to move to a big city in a few years to follow her dreams today she plans to study at a university in order to gradually get closer to her goal and keeps writing down her thoughts and ideas she loves all kinds of art and wants to be a part of it

in the struggle for existence which is ever going on in literature as in life a new book should show some variation however slight from others of its kind by means of which it may be better fitted to the surrounding conditions of thought and hope to survive for a season the reason this little book has for its appearance is a slight departure from the usual forms in which the evidences of faith are presented by which it is sought to adapt them more perfectly to the sceptical surroundings of thought in our day the variation by which this new venture among the great multitude of books hopes to live and to be useful may be said to be the result of a process of natural selection in an american mind from the german idealism and the english positivism the substance of it first formed itself in the author s mind during a season of quiet study of modern german thought and he has since found the reasoning which then enabled his own faith to survive useful in conversation with friends whose scientific studies had both brought them into unwilling doubts concerning those spiritual truths which give to life its real value and at the same time thrown the prevalent proofs of religion out of all relation to their habits of mind preface psycinfo database record c 2010 apa all rights reserved

the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truthtelling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

it feels like disbelief is a remarkable book its poems are contemporary and engaged

sometimes edgy yet they exhibit a skilled formal control and a marvellous capacity to make music out of language there is an emotional strength at the core of these poems which allows the reader to accompany the poet on a series of shared and satisfying personal journeys the poems are also rewardingly wide ranging dealing with subjects as various as human intimacy sensuality and love history refugees fishing books photography reading desire bushwalking gardening children opera archaeology and the iraq war throughout there is an elegiac sense of the imminence of loss of how time and history undo the very things that we know and take for granted many poems reveal often troubling or mysterious domestic interiors along with intense moments of recognition and recollection the book contains a number of longer poems as well as numerous lyrics including a rewarding series of sonnets these are all poems that amply repay a first reading and they will further reward the reader who becomes familiar with their subtleties and intricacies hetherington returns to various themes and motifs throughout the volume music is one example which first figures in the phrase elegant singing lines of silver death soon becomes bach s singing tune and then a scale that rippled up and down the house by the end of the volume music is the call of being that is usually unheard in such ways these poems explore and recast human perceptions while also conjuring memorable images and phrases this poetry collection is extraordinary in the way that it combines figurative language with plain speaking when the poet says that a wasp represents some trouble or beauty transformed he might have been speaking for the transformative power of his collection as a whole paul hetherington is the award winning author of seven previous books of poetry and this new collection confirms his position as one of the most gifted poets of his generation
