in december 1981 soldiers of the salvadoran army s select american trained atlatl

battalion entered the village of el mozote where they murdered hundreds of men women and children often by decapitation although reports of the massacre and photographs of its victims appeared in the united states the reagan administration quickly dismissed them as propaganda in the end el mozote was forgotten the war in el salvador continued with american funding when mark danner s reconstruction of these events first appeared in the new yorker it sent shock waves through the news media and the american foreign policy establishment now danner has expanded his report into a brilliant book adding new material as well as the actual sources he has produced a masterpiece of scrupulous investigative journalism that is also a testament to the forgotten victims of a neglected theater of the cold war

through fieldwork among the surprisingly numerous survivors the author reconstructs the recent social structure culture and history of the northeastern salvadoran village of segundo montes before during and after the infamous massacre she tries to place anthropology squarely into political issues but also focuses on the people s oral testimonies more than on her own ethnography especially resisting the easy total categorization of the survivors as victims handbook of latin american studies v 57

this book brings a fresh perspective on what may be the largest massacre in modern latin american history many new additions are included such as data from half a dozen field trips discussions of reconstruction and the fight for justice and the relation of the massacre to the region provided by publisher

el salvador s civil war began in 1980 and ended twelve bloody years later it saw extreme violence on both sides including the terrorizing and targeting of civilians by death squads recruitment of child soldiers and the death and disappearance of more than 75 000 people examining el salvador s vibrant life story literature written in the aftermath of this terrible conflict including memoirs and testimonials erik ching seeks to understand how the war has come to be remembered and rebattled by salvadorans and what that means for their society today ching identifies four memory communities that dominate national postwar views civilian elites military officers guerrilla commanders and working class and poor testimonialists pushing distinct and divergent stories these groups are today engaged in what ching terms a narrative battle for control over the memory of the war their ongoing publications in the marketplace of ideas tend to direct salvadorans attempts to negotiate the war s meaning and legacy and ching suggests that a more open coordinated reconciliation process is needed in this postconflict society in the meantime el salvador fractured by conflicting interpretations of its national trauma is hindered in dealing with the immediate problems posed by the nexus of neoliberalism gang violence and outmigration

specters of war analyzes how mourning has been expressed in postwar salvadoran and guatemalan fiction theatre and sites of memory

this book examines the long complex experience of american involvement in irregular warfare it begins with the american revolution in 1776 and chronicles big and small irregular wars for the next two and a half centuries what is readily apparent in dirty wars is that failure is painfully tangible while success is often amorphous successfully fighting these wars often entails striking a critical balance between military victory and politics america s status as a democracy only serves to make fighting and to a greater degree winning these irregular wars even harder rather than futilely insisting that americans should not or cannot fight this kind of irregular war russell crandall argues that we would be better served by considering how we can do so as cleanly and effectively as possible
