this survey of how astrology works was not written specifically for astrologers its purpose is to
formulate a materialist theory of what is empirically demonstrated in astrology our relationship with
the cosmos starting with the most feeble part of the astrological framework annemiek bosch presents
an explanation for the manifestation of the zodiac signs through the year this cycle appears to be
correlated with earth s angular movement towards and away from the supermassive black hole in the
center of our milky way galaxy drawing on the latest scientific insights of quantum physics and
consciousness research she then discusses the mechanism underpinning the astrological practice and
makes it plausible that our unconscious minds are able to obtain information from quantum
entanglement our coherence seems to cause us to collectively create our reality through a process of
controlled prediction and automatic adaptation to the cosmic environment the phenomenon of
consciousness instead of arising from individual isolated brains could be the result of this
connectedness
