with the proliferation of software as a service saas offerings it is becoming increasingly important for individual saas providers to operate their services at a low cost this book investigates saas from the perspective of the provider and shows how operational costs can be reduced by using multi tenancy a technique for consolidating a large number of customers onto a small number of servers specifically the book addresses multi tenancy on the database level focusing on in memory column databases which are the backbone of many important new enterprise applications for efficiently implementing multi tenancy in a farm of databases two fundamental challenges must be addressed i workload modeling and ii data placement the first involves estimating the shared resource consumption for multi tenancy on a single in memory database server the second consists in assigning tenants to servers in a way that minimizes the number of required servers and thus costs based on the assumed workload model this step also entails replicating tenants for performance and high availability this book presents novel solutions to both problems

although studies have suggested that mindfulness based interventions might be effective in enhancing military readiness and resilience this has not been rigorously evaluated this report presents results from a systematic review and meta analyses of research examining how

mindfulness meditation affects 13 performance related outcomes of interest to the u s army and broader military the authors supplemented the systematic review by examining how mindfulness meditation could support stress management and exploring characteristics of selected mindfulness programs the goal was to develop recommendations for mindfulness meditation programs for soldiers should the army choose to implement such programs in the future findings suggest that mindfulness may improve some aspects of attention and emotion regulation impulsivity and work related morale and social support the available evidence does not suggest that mindfulness improves other outcomes of interest to the army notably mindfulness meditation programs reduce stress and may reduce parental stress which could benefit army families yet more research is needed to identify best practices for implementing mindfulness programs in the military the authors recommend conducting high quality evaluations of mindfulness meditation with soldiers and assessing the effect of mindfulness meditation on military families
