groundwater is humanity s most vital supply of freshwater freshwater resources contained in aquifer systems globally are two orders of magnitude greater than those found in all rivers lakes and other surface freshwaters combined moreover approximately one half of the world s population today is dependent on groundwater for its basic needs while these truisms are widely acknowledged an additional reality is now recognized many of these subsurface freshwater reservoirs are actually transboundary formations shared amongst two or more nations in fact around 600 transboundary aquifers have been identified worldwide they underlie the territory of nearly every non island nation and are found in both humid and arid environments surprisingly though only a handful of transboundary aquifers worldwide are subject to any type of formal or informal international agreement transboundary groundwater resources are now receiving growing attention among the international community questions are being raised about how they should be managed allocated and protected what rights aquifer riparians can enjoy and what responsibilities these aquifer states might owe to neighbouring aquifer riparians this book considers all these various aspects of the management and regulation of transboundary groundwater resources it also presents case studies and explores recent efforts to engage the international community on best practices and global standards for governing transboundary aquifers as communities and nations continue to expand their reliance on these critical sources of freshwater they will have to address such issues and develop governance regimes for these shared subsurface resources the chapters in this book were originally published as a special issue of water international

international law and institutions is a component of encyclopedia of institutional and infrastructural resources in the global encyclopedia of life support systems eolss which is an integrated compendium of twenty one encyclopedias the main role of international law is to promote global peace and prosperity ideally international law and its accompanying institutions act as a balm to smoothen and rationalize opposing interests that nations may have this theme on

international law and institutions addresses international legal and economic issues globalization and the struggle for local control and international environmental law which are then expanded into multiple subtopics each as a chapter this volume is aimed at the following five major target audiences university and college students educators professional practitioners research personnel and policy analysts managers and decision makers and ngos

the latest edition of this casebook on banking and financial services regulation takes a problem oriented approach to the subject with its focus on the interactions and crossovers within the financial services industry it gives students and professors an opportunity to explore the issues that are defining regulation in this area malloy covers supervision and regulation of the full range of the depository institutions industry commercial banks savings associations and credit unions as well as the intersection of this industry with securities and insurance the book contains over 300 detailed problems and notes that are accessible yet challenging the problems and notes have been repeatedly tested and refined over the course of twenty years of intensive teaching at five different schools malloy has included an extensive bibliography keyed to the subject matter of each chapter the book works extremely well as a casebook for a standard course in financial services regulation and as a basic reading and resource text for an advanced seminar a teacher s manual is available

fifty years after the adoption of the declaration on permanent sovereignty over natural resources by the general assembly of the united nations in december 1962 this volume assesses the evolution of the principle of permanent sovereignty over natural resources into a principle of customary international law as well as related developments international environmental and human rights law leave unresolved questions regarding the limitations of this principle e g extraterritorial and international influences such as the applicable criminal and tort law as well as the extraterritorial and international promotion of good governance including transparency obligations

this book offers a unique and thought provoking exploration of how property concepts can be substantially reshaped to meet ecological challenges it takes the discussion beyond its traditional parameters and offers new insights into conceptualizing and justifying property systems in an age of ecological consequences
