abstract while the literature on consumption insurance is growing fast little research has been conducted on how rural consumption insurance is affected by democracy in this paper the authors examine how consumption insurance of chinese rural residents is affected if the local leader is democratically elected exploring a unique panel data set of 1 400 households from 1987 to 2002 they find that consumption insurance is more complete when the households are in villages with elected village leaders furthermore democracy improves consumption insurance only for the poor and middle income

farmers but not for the rich these findings underline the importance of democratic governance for ensuring better rural consumption insurance and poverty reduction

this title was first published in 2003 the working poor of the world are observed to engage in long hours in hard jobs and to work more if wages are further reduced mainstream economics brushes off this tendency to increase labour supply as wages fall as perverse because it does not fit the conventional wisdom and tries to explain it as a result of subsistence mentality limited aspiration or target income behaviour of the poor this however ignores the observed fact that the poor work long hard hours but most of the time fail to meet their minimum needs of subsistence and live impoverished lives in absolute poverty deficient of both food and physical rest this book postulates that the observed behaviour is the result of economic distress the working poor suffer and analyses it as a rational behaviour using the conventional utility maximization framework and derives both theoretical and empirical results consistent with the observation this book aims to correct a serious misconception persisting in the literature relating to the working poor labour supply behaviour that is almost universally observed it also goes onto develop using the supply function a methodology to determine the standard of subsistence income and physical rest for the worker

bringing together case studies from kenya benin cameroon and the philippines this volume provides a multidisciplinary overview of the economics of natural resource management in tropical regions at household and village level by comparing a wide array of climatic and economic conditions it examines the effect of location and access to the market as well as the importance of national policies have on soil and water conservation the book not only analyzes the benefits of soil and water conservation based on econometric studies but also assesses the costs involved in doing so it challenges commonly held assumptions about poorer community s ability to finance such measures

rural poverty remains widespread and persistent in south asia and sub saharan africa a group of leading experts critically examines the impact of land tenure reforms on poverty reduction and natural resource management in countries in africa and asia with highly diverse historical contexts

tests the voluntary collectivisation hypothesis by applying models of economic behaviour in collective agricultural enterprises to the understanding of the tanzanian experience analyses the problems met by tanzania in its aim of self transformation into a nation of collective villages

this book provides an accessible introduction to causal inference and data analysis with r specifically for a public policy audience it aims to demystify these topics by presenting them through practical policy examples from a range of disciplines it provides a hands on approach to working with data in r using the popular tidyverse package high quality r packages for specific causal inference techniques like ggdag matching rdrobust dosearch etc are used in the book the book is in two parts the first part begins with a detailed narrative about john snow s heroic investigations into the cause of cholera the chapters that follow cover basic elements of r regression and an introduction to causality using the potential outcomes framework and causal graphs the second part covers specific causal inference methods including experiments matching panel data difference in differences regression discontinuity design instrumental variables and meta analysis with the help of

empirical case studies of policy issues the book adopts a layered approach that makes it accessible and intuitive using helpful concepts applications simulation and data graphs many public policy questions are inherently causal such as the effect of a policy on a particular outcome hence the book would not only be of interest to students in public policy and executive education but also to anyone interested in analysing data for application to public policy

a junior officer in the red army provides one of the richest and most detailed memoirs of life and warfare on the eastern front from his combat training in early 1942 until the surrender and occupation of germany
