edwards proposed that natural types in all of creation served as a communication or language of god pointing to the antitypes of divine truths these types are shown to exist all the way down to the cellular and molecular levels of nature we explore how natural types are not mere poetical assignments of christian themes onto nature rather these types are ontologically real in that they eternally existed in the mind of god with intent to communicate divine things to the creature thus we call these natural types onto types to reflect their ontological significance theologically and spiritually in edwards scheme this was an important part of god s end in creating emerging out of edwards comprehensive metaphysics of creation is a portrayal of god

s commitment to emanate knowledge of the divine self into the creation god s being is not emanated resulting in a creation rather the knowledge and glory of god are emanated into the creation serving to communicate messages of the divine to the creature out of infinite love and faithfulness edwards expounded a two fold method where revelation of this language of nature can be experienced by direct engagement with the beauty in nature and in the study of science and its mechanisms god s action in revealing takes the form of willing the creation into being communicating analogically through onto types in the physical world and revealing such knowledge to the creature in this way all of nature is the triune god acting the father willing into being christ communicating and the spirit revealing god s trinitarian beauty and magnificent glory are not merely displayed by what has been made but is intimately shared and delighted in this in edwards view is god s ultimate end in creating
