very long time yet phillip pullman new york times bestselling author of his dark materials with almost 5 million copies sold in the 60 years since it was published generations of readers have journeyed with milo to the lands beyond in this beloved classic enriched by jules feiffer's splendid illustrations the wit wisdom and wordplay of norton juster's offbeat fantasy are as beguiling as ever for milo everything's a bore when a tollbooth mysteriously appears in his room he drives through only because he's got nothing better to do but on the other side things seem different milo visits the island of conclusions you get there by jumping learns about time from a ticking watchdog named tock and even embarks on a quest to rescue rhyme and reason somewhere along the way milo realizes something astonishing life is far from dull in fact it's exciting beyond his wildest dreams

by selecting only 100 best books silvey distinguishes her guide from all the others and makes it possible to give young readers their literary heritage in the childhood years

a 2022 choice reviews outstanding academic title spatial reasoning which promises connection across wide areas is itself ironically often not connected to other areas of knowledge thinking with maps understanding the world through spatialization addresses this problem developing its argument through historical analysis and cross disciplinary examples involving maps the idea of maps here includes traditional cartographic representations of physical environments but more broadly encompasses the wide variety of ways that visualizations are used across all disciplines to enable understanding to generate new knowledge and to effect change the idea of thinking with maps is also used broadly maps become not simply one among many items to learn about but indispensable tools for thinking across every field of inquiry in a way similar to that of textual and mathematical language effective use of maps becomes a way to make knowledge much as writing or mathematical exploration not only displays ideas but also creates them the book shows that maps for thinking are not just a means to improve geographic knowledge as valuable as that may be instead they provide mechanisms for rejuvenating our

engagement with the world helping us to become more capable of facing our global challenges this book has a broader aim it is fundamentally about general principles of how we learn and know it calls for a renewed focus on democratic education in which both the means and ends are democratic education just as the political realm should follow dewey s dictum that democratic ends need democratic methods for their realization maps and mapping are invaluable in that endeavor

for milo everything s a bore when a tollbooth mysteriously appears in his room he drives through only because he s got nothing better to do but on the other side things seem different milo visits the island of conclusions you get there by jumping learns about time from a tick watchdog named tock and even embarks on a quest to rescue rhyme and reason somewhere along the way milo realizes something astonishing life is far from dull in fact it s exciting beyond his wildest dreams
