for trainers free additional material of this book is available this can be found under the training material tab log in with your trainer account to access the material note this book is available in several languages english dutch an increasing number of companies are working in a project like manner using the prince2 project management method the advantages of a standard method are great a uniform method of working and terminology makes projects comparable transferable and orderly moreover prince2 has additional qualities such as the standard no go go decision with each stage the business case at the centre of the project and clear agreements about who is responsible for what the book gives a faithful representation of the 2009 edition of the prince2 methodology with many lists serving as reference material for all project types and sizes furthermore as the content of the book covers all specs for the prince2 foundation exams it can serve as a good basis for the prince2 foundation exams the three authors of this title have successfully

combined their tremendous experience and made this available in a structured manner to those who are involved in controlling designing or managing projects and whatever they missed was added by a team of expert reviewers the content for this book is also intended for everyone doing projects in real world it covers more than the minimum reference that is necessary for the foundation exam therefore it is also very useful as a solid starting point for anyone studying for the prince2 practitioner exam available in english and dutch

in recent decades we have witnessed an increasing use of projects and similar temporary modes of organising in the public sector of nations in europe and around the world while for some this is a welcome development which unlocks entrepreneurial zeal and renders public services more flexible and accountable others argue that this seeks to depoliticise policy initiatives rendering them increasingly technocratic and that the project organisations formed in this process offer fragmented and unsustainable short term solutions to long term problems this volume sets out to address public sector projectification by drawing together research from a range of academic fields to develop a critical and theoretically informed understanding of the causes nature and consequences of the projectification of the public sector this book includes 13 chapters and is organised into three parts the first part centres on the politics of projectification specifically the role of projects in de politicisation often accomplished by rendering the political technical the chapters in the second part all relate to the reframing of the relationship between the centre and periphery or between policy making and implementation and the role of temporality in reshaping this relation the third and final part brings a focus upon the tools techniques and agents through which public sector projectification is assembled constructed and performed
