covering both higher education and school education this book contributes to the field of assessment by providing a systematic account of student self assessment based on a consistent conceptualisation Yan advocates viewing self assessment as an active and reflective process and using it as a learning strategy rather than an assessment method he builds on a newly developed self assessment model adopting a process perspective and synthesises a series of interrelated empirical investigations into the whole chain of student self assessment research the research encompassed in the volume spans from self assessment practices and measurement through predictors of self assessment its interweaved relationship with self regulated learning and feedback literacy impact on student learning outcomes to designing sustainable self assessment interventions the empirical evidence is from a wide range of current scholarship to ensure that the principles and implications conveyed are applicable internationally policymakers students and scholars in educational assessment educational psychology and teaching and instruction will find the theoretical explorations and empirical investigations contained within useful to show how student self assessment could be better conceptualised researched and practised

self assessment is increasingly used in higher education as a strategy for both student learning and assessment this book examines the full range of concerns about self assessment placing it in the wider context of innovative teaching and learning practices

this report provides an international comparative analysis and policy advice to countries on how evaluation and assessment arrangements can be embedded within a consistent framework to improve the quality equity and efficiency of school education

this text examines second language pedagogy from two critical fields of literature psycholinguistics and socio cultural offering a fresh perspective on interactive content based language teaching and learning unique in its kind this highly practical text offers more methodological approaches to teaching in esl settings than any other book on the market making it a perfect match for undergraduate pre service teachers who are learning how to teach esl students in their classrooms novice teachers will have the opportunity to interact with the text reflect and consult with colleagues partners and classmates by being able to write in the text revisit those responses and view video clips on the companion website

the purpose of this study was to explore an american model harris 1986 of effective classroom teaching behaviors as a framework for teachers professional growth the particular focus was on the self assessment component of the methods related to the model an empirical approach was adopted and comparative data were gathered from american and finnish teachers using a common self evaluation instrument the study identified and analyzed cross cultural differences and culture specific behaviors the analysis revealed that a complete fit between the model and the data could not be found discriminant analysis revealed interesting differences in the evaluation of teachers from different teaching traditions the american teachers were found to be much more dynamic in their classroom behavior than their finnish colleagues finnish teachers reflected their academic tradition well by giving much more emphasis to a businesslike type of behavior the research is presented in eight chapters as follows 1 introduction 2 teachers professional development 3 the reform traditions 4 methods for helping teachers professional growth 5 the empirical framework 6 cross cultural validity of the harris model 7 dimensions of teacher classroom behavior and 8 discussions on methodology and conclusions appendixes provide a copy of the questionnaire in english and in finnish and computer listings for chapters 6 and 7 contains approximately 175 references author ll

assessment and grading in classrooms is particularly geared to the needs of classroom teachers emphasizing sound approaches to gathering both formative and summative information about student achievement of classroom learning targets interpreting standardized tests for classroom purposes and using information from multiple sources to help students learn classroom examples and stories breathe life into the concepts presented in the text

the special mission of assessment in the classroom is to show how assessment principles apply to the full range of teacher desicion making from organizing the class as a social system to planning and conducting instructions to the formal evaluation of learning and finally to grading the goal is to show students that assessment is an everyday ongoing part of their teaching not some esoteric affair that is divorced from their daily routine with this in mind the

following features have been built into this text

what are the specific skills and strategies students need to learn in order to assess themselves in the classroom and how do you teach them those strategies in the context of subject area material here s a resource that answers those questions and gives you more than 50 tools to use with students in every grade level and subject a series of teacher tools helps you create high quality classroom assignments use appropriate intervention strategies and give students good feedback then a series of student tools help you teach formative assessment strategies that students can use when an assignment is given during direct instruction during group or individual work before a summative assessment such as a major test and after a summative assessment publisher
